The Premium is paid in Cash annually, or may, if desired, be paid semi-annually, or quarterly, by adding interest to the deferred payments. The CASH principle adopted by this Company, secures to the parties for whose protection insurance may be effected, the WHOLE of the benefits, without subjecting them to the heavy drawback of accumulated premium notes.
Persons may effect insurance upon their lives, or upon the lives of others. Married women can insure the lives of their husbands, for their own benefit and for the protection of their children.
Pamphlets explanatory of the principles of Life Insurance, and illustrative of its advantages, may be had, with form of application, and rates of premium, at the office of the Company, No. 35 Wall street, or from any of its Agents.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 30 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefor adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

MILWAUKEE DAILY SENTINEL.

NEW SERIES.

Milwaukee Daily Sentinel.

SATURDAY MORNING, DEC. 27, 1851.

Rufus King, Wm. H. Watson & John. S. Fillmore,
PROPRIETORS.
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

OFFICIAL PAPER OF THE CITY.

OUR FOREIGN RELATIONS.

Our brief rejoinder to the *Commercial's* paragraph about the *Prometheus* affair, calls forth a half-column of angry invective and reckless falsification from our mild-tempered, evil-spoken and truth-loving cotemporary. As fair specimens of its accuracy and amiability, we copy two of the *facts (!)* which it adduces in support of its general charge that our national honor is in very bad keeping:

> Why, during the Cuban invasion, our steamers passing and repassing from Chagres to New York became the common targets for the Spanish artillerists to *practice* at!
>
> The news of almost every arrival from the Gulf was accompanied with the remark—and it got to be quite common-place by constant use—that the steamer was fired into by the Spanish War Steamer, or the Corvette, or what not, &c. * * *
>
> Nearly every red-coated gunner in the Royal Navy has had his innocent pop, with a *thirty-two*, at some American Merchant ship, bringing to our shores, perhaps, a thousand returning citizens of the republic, and millions in gold dust from the California mines.

These are moderate fabrications, truly! FALSTAFF's celebrated manufacture of "eleven men in buckram" and "four mis-begotten knaves in Kendall green," out of Prince Hal and Poins, sinks into insignificance compared with the *Commercial's* Herculean achievement. Having nothing but the "raw material" of the firing at the *Falcon*, by a Spanish War Steamer, and at the *Prometheus*, by an English brig, to work upon, the *Commercial*, by a marvelous exercise of fancy, magnifies and multiplies these two instances into an indefinite number of outrages. According to this veracious chronicler, "our steamers between New York and Chagres became common targets for Spanish artillerists to practice at," and "nearly *every* red-coated gunner in the Royal Navy (there are some *ten thousand* of them!) has had his innocent pop, with a *thirty-two*, at some American Merchant ship!" It would be superfluous to reply to arguments, or assertions based upon such notoriously false premises. They carry their contradiction on their face. Nay, they destroy what little vitality the *Commercial's* philippic might otherwise have had, since its own readers will conclude that it resorts to these falsehoods only because the facts are too much for it. When the author of a calumnious charge is driven, at the first fire, from specifications to generalities, and offers bold assertion for tangible proof, the accusation defeats itself, and only 'returns to plague the inventor.'

THE MAILS.

Still no mails from New York, later than the 11th inst, up to yesterday morning. *Fifteen days* from New York to Milwaukee is "piling up the agony" rather too high, for these railroad times.—We have been trying to invent excuses for these repeated and continual failures and delays, but there *are* no valid excuses. *Reasons* there are, plenty as blackberries—and here is a statement of one of them, clipped from the Cleveland *Herald*:

> POST OFFICE,
> CLEVELAND, Dec. 19, 1851.
>
> The New York Mail for this city, the West and South-west, arriving daily at Dunkirk, via N. Y. & Erie R. R., *since Saturday evening last* has been detained at that point for the want of proper facilities to deliver them at Fredonia, on the route of the Ohio Stage Co., from Buffalo to Cleveland.
>
> Immediately on receipt of this information, last evening, I ordered the despatch of three tons of mails, at my own expense, from Dunkirk to Fredonia. Three coach loads are on the way and will reach here to morrow (Saturday) evening. If the Postmaster at Dunkirk does his duty by forwarding the mails immediately on arrival at Dunkirk, to Fredonia, the Ohio Stage Company are ready to give them despatch westward, until the completion of the Lake Shore Rail Road.
>
> DANL. M. HASKELL, P. M.

Now, reader of ours, how far do you think that Fredonia is from Dunkirk, that the Postmaster at the latter place could not send them on, but delayed them *six days*? Why, *just three miles*!—Comment is unnecessary upon such miserable mismanagement.

However, it is consoling to know that the mails of the 12th &c. were to be in Cleveland on the 20th. As the Cleveland papers of the 19th have reached us at last, we may fairly expect to get a mail from the Atlantic states today, or tomorrow.

The extracts from Kossuth's speech, and various interesting news items which we give today, are from New York and Boston papers from the 15th to the 17th inclusive, for which we are indebted to our friend HENRY L. NAZRO, Esq., who arrived yesterday morning, beating the mails 7 days, over the same route. He has truly proved himself a friend in time of need.

Gen. Wool Movement.

A meeting of the Democracy to nominate Gen John E. Wool for the Presidency, was held at Troy N. Y. on the 12th, and was well attended. Mayor Warren presided. Resolutions nominating Gen. Wool were adopted, and it was resolved to issue an address to the country in his favor. The Troy Whig says Gen. Viele in the course of his remarks "referred to the other Democratic candidates proposed, and gave it his opinion that in the State, with Van Buren they would be beaten by 50,000, with Cass, 100,000 that Marcy *stood not the ghost of a chance*, and that Gen Wool was the only name for which there was any prospect."

It will be seen that Gen. VIELE, who is a very prominent and active democrat in Troy, entertains a very different opinion of Gov. MARCY's popularity in the Empire State, from that expressed by our neighbor of the *Wisconsin*.

LOSS OF THE MAYFLOWER.—A passenger on the *Mayflower* furnishes the Cleveland *Plaindealer* with full particulars of her wreck. It seems that she had but a light freight, and only 20 passengers aboard, and no women among them. It is said that a small portion of her mail was lost. The Detroit papers of the 20th, express a hope that this noble steamer may be got afloat again, but the chances are that she will prove a total loss.

ACCIDENT FROM FIRE-ARMS.—The Chicago paper of Wednesday, state that Mr. GIBBS, mate of the Schooner *Telegraph*, was accidentally shot by a young man in the store of J. P. KNOTT, whither Gibbs had gone to buy a pair of boots. While examining the boots, GIBBS drew a pistol from his pocket and handed it to the clerk to look at, and while in his hands, it was accidentally discharged. The ball penetrated Gibbs' lungs and, it is feared, inflicted a mortal wound.

☞ The steamer *Empire State* left Cleveland on the 11th, and arrived safe the next day at Blackrock, being unable to get into Buffalo harbor.

The propeller *Oneida* has been unloaded, and got off. She was safe at Fairport, having suffered but little loss.

Two schooners, the *Speedwell* and *Isabella*, belonging in Cleveland, are missing.

☞ The will of the late JOHN McDONOGH has been submitted to five of the best jurisconsults of Paris, who have unanimously pronounced an unreserved opinion in favor of the validity of the will, and also expressed an unequivocal opinion against the suits brought by the States of Maryland and Louisiana. This is of the first moment in this important case, as the suits to test the validity of the testament must be decided according to the civil law.

THEATRICALS.—Mr. G. J. ADAMS, with a portion of his company, is delighting the good people of Fond du Lac and vicinity, with a series of Theatrical representations. Mr. LANGRISH, with another division, is playing to good houses at Janesville, and intends next week, to go to Madison for a short season.

"AN ILL WIND, &c."—By the death of the King of Hanover, the British Government saves £21,000 a year, that sum having been paid to him as a pension.

Doings of Congress—Mr. Walker's Speech.

In the Senate, in the 15th, Mr. Shields introduced a resolution to appoint a Committee to wait upon Kossuth, and introduce him to the Senate.

Mr. Walker, of Wis., spoke in favor of the resolution. He welcomed Kossuth on his principles, and also because he saw in this measure the incipient step towards a departure from our present unwise policy of neutrality. He had long desired to see the policy of the neutrality of our government overthrown. The weakness which induced the neutrality policy of Washington no longer existed. To prevent interference by European nations to put down struggling liberty, or any other violation of national law, he would be in favor of the interruption of international law. He would be in favor of the interposition of this government, and not only by its moral, but its physical power. He was in favor of not only telling Kossuth he has the best wishes of the United States, but should have our material aid. He was now in favor of telling all the nations of Europe that when any people should struggle for freedom, they must keep their hands off, and that declaration he would maintain good by all the power of government.

The resolution passed, Ayes 30, Nays 15. The nays were the following:

J. A. Bayard, Del; Solon Borland, Ark; A. P. Cutler, S. C; J. Clemens, Ala; W. C. Dawson, Ga; R. M. T. Hunter, Va; J. D. Jones, Tenn; W. R. King, Ala; J. M. Mason, Va; J. Morton, Fa; T. G. Pratt, Md; W. K. Sebastian, Ark; P. Spruance, Del; J. R. Underwood, Ky, W. Upham, Vt.

All southern men but one—8 locos, 7 whigs. On the same day, in the House, the Senate's first resolution of welcome passed by Ayes 181, nays 16—the following being the nays:

J. Abercrombie, Ala; T. H. Averett, Va; J. Bragg, Ala; A. G. Brown, Miss; J. P. Caldwell, N. C; J. G. Harris, Tenn; A. R. Holliday, Va; J. Johnson, Ga; G. W. Jones, Tenn; F. S. Martin, N. Y; J. T. Morehead, N. C; J. Y. Savage, Tenn; R. Scurry, Texas; A. H. Stephens, Ga; C. H Williams, Tenn; J. A. Woodward, S. C.

All southern men but one—11 locos, 5 whigs. Mr. Smith, of Alabama, attempted to palliate his conduct in moving the arrest of Kossuth, but only made matters worse, and the subject was dropped in disgust.

Mr. Fitch, (dem.) of Indiana, asked leave to offer a preamble and resolution to the following effect:—

On July 3d, 1848, the House avowed that the then existing war with Mexico was unconstitutionally begun. The said expression is a stigma on the memory of the dead, and a reproach to the living, and has no foundation in fact, but is the act only of the then majority in Congress, and not the opinion of the American people. Mr. F. asked the unanimous consent of the House to introduce the resolution.

Mr. Stephens, (whig,) of Ga., objected.

Mr. Fitch moved a suspension of the rules; but two-thirds did not vote for it.

THE HUNGARIAN FUND.

A meeting was held in New York on the 15th, at which the following resolution was passed, on motion of HORACE GREELEY:—

Resolved, That we respectfully but most earnestly request our fellow citizens throughout the Union, to assemble at the earliest practicable day, in their several cities, towns and villages, and organize Committees to co-operate with us in the good work of extending pecuniary aid to Governor Kossuth and the patriots of Hungary.

The following gentlemen were chosen as the Finance Committee for New York, to take charge of the contributions forwarded:

George Newbold, Shepherd Knapp, Moses H. Grinnell, Robert Emmet, Wm. H. Aspinwall, Stewart Brown, John J. Palmer.

An Executive Committee of sixty leading citizens, the Mayor's name heading the list, was appointed, and the following officers selected from its members;

Ch'n—Simeon Draper.
Vice Chairmen—Theodore Sedgwick, Oscar W. Sturtevant.
Secretaries—H. J. Raymond, John Cochran, R. L. Kennedy.
Sub-Executive Committee—John W. Edmonds, C. C. Butler, James P. Ring, C. M. Leupp, Jacob Harsen.
Committee on Public Entertainments—Ambrose C. Kingsland, Junius T. Storrs, James Kelly.
Committee of Correspondence—Geo. Bancroft, John Van Buren, J. H. Goudie, G. W. Blunt, H. J. Raymond.

Five subscriptions of $1000 each are already acknowledged, and $1,200 besides.

Kicking in the Traces!

The Monroe *Sentinel*, "*reg. dem*," does not feel disposed to submit to the trickery by which the vote of this state at the Baltimore Convention next summer was handed over to General Cass. It thus speaks of the "mysterious influences" set at work by the "party mesmerisers to bring about the result:

> Of the nature of these influences and their peculiar operation we may speak more fully at another time,—but their *immediate* effect was the appointment of Cass and Foote delegates to the National Convention, when it is known that either the great Michigander, or the pugnacious little Mississippian would be almost the *last* choice of the *masses* of Wisconsin.
>
> The dear people begin to perceive that they were sold by their *servants* in the Madison Convention, and are now casting about for a remedy. They also perceive that Douglass, the universal favorite of the North West, and General Dodge, whom we might almost call the Father of Wisconsin, were thrown out of a Wisconsin Convention, and "despitefully used," while the arch enemy of western improvements became the *protem.* p. d!

RICH DIGGINGS.—A correspondent of the Galena *Advertiser*, writing from Shullsburg, Lafayette County, in this State, under date of December 20th, gives very glowing accounts of the success of the Miners in the Lead Diggings thereabouts. This correspondent says that Messrs. DAVENPORT & Co., and E. WEATHERBEE & Co have each raised about 15,000 lbs. per week since last March; that Mr. R. PEASLEY is taking out about 50,000 lbs. weekly, and has realized $30,000 from his lead since Spring, that Messrs. PORWINE & MELOY have taken out "over 500,000 lbs. in the last four months," and are now raising 100,000 lbs. weekly; and concludes thus:

> Nor, are the above named persons the only ones that "are doing well" in this vicinity. Mr. Joseph Hardy, Milton Cain, Edward S. Lewis, Michael Starin, Francis Gregor, Michael Quin, John Hardy, G. P. Simmons, and a dozen others, have very good diggins, and are taking out respectively from 3,000 to 10,000 lbs. weekly. Every miner that works, (and where is the miner that is not a working man?) is making from $1,50 to $10 per day the year round. The mines are doing better now than at any time heretofore since their discovery. The effect this yield of mineral has upon our community I leave you to imagine. This much I can say, however, that in a population of over 2,000, we have but three paupers, and they are *non residents*.

> Yours, &c., A SUBSCRIBER.

VIRGINIA ELECTION.—The northwestern counties of Virginia, comparatively free from Slavery, have done well at the recent election. The same counties that last year sent but one Whig member to the Senate and three to the House, this year have elected four Whig Senators and thirteen members of the House.

"THE NORTHERN REPUBLIC."—This is the name of the new whig paper just started at Fort Winnebago, Columbia Co, by W. W. NOYES. It is a sheet of good size, and very creditable appearance, and bids fair to be an efficient co-worker in the good old Whig cause. We hope that it will receive a prompt and hearty support.

MICHIGAN SOUTHERN RAIL ROAD.—We learn from the Chicago *Democrat*, that Capt. GEORGE M. GRAY, well known to many of our citizens, has been appointed Agent for the Southern Michigan R. R. Company, in Chicago. The selection strikes us as a very fortunate one.

THE COLD AND STORM.—The Chillicothe Gazette records the mercury at 10 below zero, and the Columbus Journal 15 on Tuesday, Dec. 15th. At Buffalo a terrific gale prevailed, snow fell to the depth of two feet and was terribly drifted. At Pittsburgh Dec. 17th, weather extremely cold and navigation closed.

FIRE AT GENEVA.—A despatch dated Utica, Dec. 15th, announces a fire at Geneva the day previous, destroying the Franklin House, and other buildings, including the Post Office. There is some obscurity in the account, and we hope that the loss may not prove so severe as represented.

ACCIDENT.—Mr. E. H. Corwith, of Galena, was thrown out of a cutter near the Dells of the Wisconsin river, week before last, and had his thigh broken.

Proceedings of the Common Council.

SPECIAL MEETING.

Reported for the Sentinel.

FRIDAY, Dec. 26th, 1851.

His Honor, Mayor Walker, in the chair.

Clerk called the roll.

Present—Ald. Johnson, Daggett, Jung, Comstock, Randall, McCormick, Cordes, Hackett, West, Plankinton, and Tesch.

Absent—Biebrich, Sweet, Wunderly, and Dousman.

The Journal was not written up.

Sundry accounts from the Wards were presented and properly referred.

Resolutions were introduced proposing to purchase Lots 7, 8, 9, 10, 11, 12, being the west half of Block 10, in 1st Ward, to enlarge Market Square. Referred to local committee of 1st ward.

Also a proposal to build a new hay scale in same square for $200. Referred to same.

Also a letter from builder of hose carriage, asking for pay. Referred to committee on Fire Department.

Also, a communication from J. Lockwood, announcing that he has purchased land and castings, and will go on with the Gas Works early next season. A resolution was presented accepting the work so far done, as a commencement of a fulfilment of the contract. Adopted.

Ald. Johnson read a protest against the refunding of the license money, signed by numerous citizens.

Also a letter from Jas. H. Paine, Esq. as attorney of certain citizens, announcing that they would hold the Aldermen individually liable for the money paid out.

Ald. Johnson also presented a formal note from himself to the Mayor, announcing the above letters, and bringing the subject before the Board.

Ald. Plankinton moved to reconsider the vote by which the resolution passed.

Ald. Daggett moved to lay the motion to reconsider on the table.

His Honor stated that if the motion carried, the whole question would lay on the table.

The question was put and resulted:

Ayes—Ald. Johnson, Daggett, Comstock, Randall, Hackett, West, Plankinton, Tesch

Noes—Ald. Jung, McCormick, Cordes.

And the whole subject was laid upon the table.

The presentation of accounts was continued.

Reports.

Ald. Daggett, from Committee on Finance, reported to back taxes overpaid amounting in the whole to $335,11. Adopted.

Ald. Comstock, from Fire Department Committee, in favor paying certain accounts. Adopted.

Also adverse to paying account of Button and Sexton for refreshments furnished to firemen.

The Mayor stated that he had coincided with the Chief Engineer in ordering these refreshments.

Ald. Daggett hoped that the bill would be paid.

On motion of Ald. McCormick the report was amended and the bill allowed.

From same Committee, a report to pay Hose Company an amount issued to a person representing himself as authorized by the Company to receive it.

The Clerk made a statement as to the circumstances in the case, showing that he issued the orders in good faith; and the re-issue was directed to be made to the company.

Ald. Johnson, from Almshouse Com., presented a communication with reference to the suffering condition of the poor for want of firewood.—He offered a resolution requesting the Superintendent of the poor to provide for them, and promising to support him in the proper action. Carried.

Bridge Committee reported on certain accounts. Passed by all except the 2d Ward.

Ald. Daggett, from Special Committee on Hydraulics, reported the form of a contract with J. H. Pattee & Co., of Cincinnati, to build waterworks. The latter are to have exclusive privilege of building and furnishing water for 30 years. The city to purchase the works at the end of the term, at their appraised value; if not, the contract to run 10 years further. The Company to commence work within 1 year, and complete in two years. Water for fire department to be free, and a full supply for all private and public wants furnished.

Ald. Johnson opposed the ratification of the contract because of the length of the term, and for want of specific price for water.

The report was laid on the table.

Sundry accounts were allowed from the several wards, on reports from the local committees.

Ald. Johnson presented a resolution to appoint a committee to procure an assignment of the Railroad Bonds, in the hands of the city.—Adopted, and Ald. Johnson, Randall and Plankinton appointed as the committee.

Ald. West reported an ordinance to regulate the grade of 8th Street, at its intersection with Sycamore street. Read first and second times, and lies over.

Ald. Daggett offered a resolution directing the Treasurer to receive payment for taxes on such portions of lots or improvements as the owners may clearly define. The resolution was lost after discussion—Ayes 2, Noes 9.

A resolution was carried forbidding the street inspectors to enter into any contracts without the consent of two of the Aldermen of their respective wards.

A resolution directing Third Ward Sewer orders to be received in payment of Sewer taxes.—Carried.

A resolution directing the attendance of marshal, deputy marshals, constables and Street inspectors at fires, was passed.

Ald. Johnson suggested the appointment of a deputy marshal to carry out the license law. He said it was reported that the Marshal was personally interested in the matter, and he moved that such a deputy be appointed to act in this matter.

It was stated that the Mayor has no power to appoint a deputy. Ald. Johnson moved that the Council request the Marshal to appoint Timothy O'Brien as such deputy, and the Marshal consented.

Ald. McCormick and Randall urged some definite action with regard to carrying out the license law. The latter suggested that complaints might be taken before justices in the towns. He pledged himself that if any of those who complain that, while they have paid license, others are selling without, would make complaints to him in any specific case, he would lend his aid, and so would, he believed, any other member of the board.

An ordinance vacating a certain street in the 4th Ward, was read a third time and passed.—Adjourned to Tuesday next.

DICKENS IN A DILEMMA.—Having stated in the original preface to Nicholas Nickleby, that the Brothers Cherryble, were portraits from the life, and that they yet exercised their unbounded benevolence in the town of which they were the pride and the honor, Dickens thus laments over the applications to which his statement has given rise:

> "If I were to attempt to sum up the hundreds upon hundreds of letters from all sorts of people, in all sorts of latitudes and climates, to which the unlucky paragraph has since given rise, I should get into an arithmetical difficulty, from which I could not easily extricate myself. Suffice it to say that I believe the application for loans, gifts, and offers of profit that I have been requested to forward to the originals of the Brothers Cherryble, (with whom I never interchanged any communication in my life,) would have exhausted the combined patronage of all the lord chancellors since the accession of the House of Brunswick, and would have broken the rest of the Bank of England."

☞ THE BLACK SWAN has made a triumphant musical *debut* at Rochester. The *American* says:

> "Hardly had her first notes fallen upon their ears, however, before their wonder and astonishment was manifest in an interchange of glances and words of approval, and the hearty applause that responded to the first verse she sung, was good evidence of the satisfaction she afforded."

ROCK ISLAND AND CHICAGO R. R.—John B. Jervis, late Engineer of the Hudson River Railroad, has been elected President, and A. C. Flagg, Treasurer, of the Rock Island Railroad.

THE LOST SCHOONER.—The schooner *Wave*, missing from Racine, has brought up in safety at Kalamazoo, Mich.

KOSSUTH'S SPEECH AT THE PRESS BANQUET.

New York papers of the 16th, received by private hand, contain full details of the great banquet given by the members of the N. Y. Press to the Governor of Hungary. We make room for a few extracts which will give an idea of the whole. Here and there his fine Oriental imagination exhibits itself to striking advantage. His tribute to our system of donation for lands for purposes of Education, and his allusion to the presiding officer, the poet Bryant, are very beautiful:

GENTLEMEN:—Rising respectfully to return my most warm thanks for the honor of the toast, and the high benefit of the sympathy manifested by this solemn demonstration, it is with mingled feelings of joy and fear that I address you, gentlemen. I address you with joy, because, conscious of the immensity of the power which you wield, it is natural to feel some awe in addressing those in whose hands the success or the failure of our hopes is placed. Still, I equally know that in your hands, gentlemen, the independent republican press is a weapon, but a weapon to defend truth and justice, and not to offend. It is no screen to hide, no snuffers to extinguish the light, but a torch lit at the fire of immortality, a spark of which is glistening in every man's soul, to prove its divine origin; a torch which you wield loftily and high, to spread light with it to the most lonely regions of humanity. And as the cause of my country is the cause of justice and truth—as it has in no respect to fear light, but rather wants nothing but light to see secured to it the support and protection of every friend of freedom, of every noble-minded man, these are the reasons why I address you with joy, gentlemen. The more with joy, because, though it is sorrowful to see that ill-willed misrepresentations or secret Austrian intrigues, distorting plain, open history to a tissue of falsehood and lies, know how to find their way even to a small, insignificant part of the American press, still I am proud and happy to see that the immense majority of the American press not only proved inaccessible to these venomous intrigues, but conscious of the noble vocation of an independent press, and yielding to the generous inclination of freemen, of protecting truth and justice against the dark plots of tyranny, has, without any interference from my part, come forth to protect the sacred cause of Hungary. The independent press of this great republic has in this very case also proved to the world that even against the mischievous power of calumnies, the most efficient protection is the freedom of the press, and not preventive measures, condemning human intellect to eternal minority.

* * * * *

I boldly declare, that beyond the United States there exists scarcely a practical freedom of the press—at least in Europe, not except, perhaps, Norway, of whose condition, in that respect, I am not quite aware. You know, gentlemen, how the press is fettered throughout the European continent; even, for the present, in France itself, whose great nation, by a strange fate, sees, under a nominally republican, but centralized government, all the glorious fruits of their great and victorious revolutions wasting between the blasting fingers of centralized administrative and legislative omnipotence. You know how the independent press of France is murdered by imprisoning their editors, and by fines; you know how the present government of France feels unable to bear the force of public opinion—so much that in the French republic the very legitimate shout of "*Vive la Republique*" has almost become a crime. This very circumstance is sufficient to prove that in that glorious land where the warm and noble heart of the French nation throbs with self confidence and noble pride, a new revolution is an unavoidable necessity.

* * * * *

It is a glorious thing to know that in this flourishing young city alone, where streets of splendid buildings proudly stand, where a few years ago the river spread its waves, the plough tilled, nearly one hundred thousand children receive public education annually. Do you know, gentleman, where I consider the most glorious monuments of your country? If it be so as I have read it once—it is that fact, that when in the steps of your wandering squatters, your engineers go on to draw geometrical lines, even in the territories where the sound of a human step never yet has mixed with the murmurs by which virginal nature is adoring the Lord; in every place marked to become a township, on every sixteenth square, you place a modest pole, with the glorious mark, "Popular Education."

* * * * *

Yes, gentlemen, it is a proud recollection of my life that I commenced my public career in the humble capacity of a journalist. And in that respect I may perhaps be somewhat entitled to your brotherly indulgence, as you, in the happy condition which the institutions of your country insure to you, can have not even an idea of the tortures of a journalist who has to write with fettered hands, and who is more than fettered by an Austrian arbitrary preventive censorship. You have no idea what a torture it is to sit down to your writing desk, the breast full of the necessity of the moment, the heart full of righteous feelings, the mind full of convictions and of principles,—and all this warmed by the lively fire of a patriot's heart—and to see before your eyes the scissors of the Censor ready to fall upon your head, like the sword of Damocles, lopping your ideas, maiming your arguments, murdering your thoughts; and his pencil before your eyes, ready to blot out, with a single draught, this work of your laborious days and of your sleepless nights; and to know that the people will judge you, not by what you have felt, thought, and written, but by what the Censor wills; to know that the ground upon which you stand is not a ground known to you, because limited by rules, but an unknown slippery ground, the limits of which lie not within the arbitrary pleasure of your Censor—doomed by profession to be stupid, and a coward, and a fool;—to know all this, and yet not curse your destiny—not to deny that you know to read and to write, but to go on, day by day, in the torturing work of Sisyphus. Oh! it is the greatest sacrifice which an intelligent man can make to fatherland and humanity! And this is the present condition of the Press, not in Hungary only, but in all countries cursed by Austrian rule.

* * * * *

Gentlemen, a considerable time ago there appeared in certain New York papers a systematic compound of the most foul calumnies, falsehoods and misrepresentations about the Hungarian cause, going so far as with unexampled effrontery, to state that we struggled for oppression, while it was the cursed Austrian dynasty which stood forth for liberty. Now, there is a degree of effrontery, the temerity of which becomes astonishing even to me, who, have seen the unexampled treachery of the House of Russia, and become familiar with the old Roman maxim, "*nil mirari*," through my tempest-tossed life. We may be misrepresented, scorned, jeered, charged with faults; our martyrs, the blood of whom cries for revenge, may be laughed at as fools; and even heroes, commanding the veneration of history, may be represented as Don Quixottes of tragi-comedy;—all this I could, if not bear, at least conceive. I have seen strange specimens of the aberrations of the human mind. But that, in the midst of the most wonderful sufferings, not even the honor of an unfortunate nation should be sacred to some men, who enjoy the benefit of free institutions and profess to be republicans—that is too much! it is a sorrowful page in mankind's history. You cannot, of course expect to see me, on this occasion, entering into a special refutation of this astonishing compound of calumnies, I will reserve it for my pen, so soon as I can have a free day for it. It will be very easy work, because all artificial compounds or misrepresentations must fall into dust before the dispassionate, plain statement of facts, the greater part of which, I thankfully have to acknowledge are already not unknown to you.

* * * * *

What would become of this grand, mighty complex of your republic, should it ever be attacked in its consistency by the furious hands of the fanaticism of language? Where now she wanders and walks among the rising temples of human happiness, she soon would tread upon the ruins of liberty, mourning over the fragility of human hopes. Happy art thou, free nation of America that thou hast founded thy house upon the only solid basis of a nation's liberty. Liberty! a principle steady like the world, eternal like the truth, and universal for every climate, for every time, like Providence. Thou hast no tyrants among thee to throw the apple of Eros in thy Union. Thou hast no tyrants among thee to raise the fury of hatred in thy national family—hatred of nations, that curse of humanity, that venomous instrument of despotism. What a glorious sight it is to see the oppressed of so many different countries, different in language, history and habits, wandering to thy shores, and becoming members of thy great nation, regenerated by the principle of common liberty. Would I could do the same: but I can't because I love my native land, inexpressibly, boundlessly, fervently. I love it more than life, more than happiness; I love it more in its gloomy sufferings than I would in its proudest, happiest days. What makes a nation? Is it the language only? Then there is no great, no powerful nation on earth, because there is no moderately large country in the world whose population is counted by millions, where you would not find several languages spoken.—No! it is not language only which makes a nation. Community of interests, community of history, communities of rights and duties, but chiefly community of institutions of a population, which, though perhaps different in tongue, and belonging to different races, is bound together by its daily intercourse in their towns the centres of their homely commerce and homely industry, the very mountain ranges, and system of rivers and streams, the soil, the dust of which is mingled with the ashes of those ancestors who bled on the same field, for the same interest—the common inheritance of glory and of woe, the community of laws, tie of institutions, tie of common freedom, or common oppression—all this enters into the definition of a nation.

* * * * *

There are some who advocate the theory that existing countries must cease, and the territories of the world be anew divided by languages, and nations segregated by tongues. You are aware that this idea, if it were not impracticable, would be but a curse to humanity—a death blow to civilization and progress, and throw back mankind for centuries—it were eternal source of strife to war, because there is a holy, almost religious tie, by which man's heart to his home is bound, and no man ever would consent to abandon his native land only because his neighbors speak another language than he himself; and, by this reason, claims for him that sacred spot where the ashes of his fathers lie—where his own cradle stood—where he dreamed the happy dreams of youth, and where nature itself bears a mark of his manhood's laborious toil. The idea were worse than the old domination of nations was—despotism only would rise out of the strife.

* * * * *

It is, therefore, the most calumnious misrepresentation, to say that the Hungarians struggled for the dominion of their own race. No! we struggled for civil, political, social and religious freedom common to all, against Austrian despotism. We struggled for the great principle of self-government against centralization; and, because centralization, absolutism. Yes, centralization is absolutism; it is inconsistent with constitutional rights. Austria has given the very proof of it.—The House of Austria had never the slightest intention to grant constitutional life to the nations of Europe. I will prove it on another occasion. It hates constitutions as hell hates the salvation of human souls. But the friends of the Hapsburgs say it has granted a constitution—in March, 1849. Well, where is that constitution now? It was not only never executed, but it was, three months ago, formally withdrawn. Even the word ministry is blotted out from the dictionary of the Austrian government. Swarzenberg is again House, Court and State Chancellor, as Metternich was; only Metternich ruled, not with the iron rule of martial law over the whole empire of Austria.—Schwarzenburg does. Metternich encroached upon the constitutional rights of Hungary, Transylvania, Croatia and Sclavonia. Swarzenburg has abolished them, and the young Nero, Francis Joseph, melted all nations together in a common bondage, where the promised equality of nationalities is carried out most literally, to be sure, because they are all equally oppressed, and are all equally ruled, by absolutistical principles, in the German language.

* * * * *

Gentlemen, the generous sympathy of the public opinion of the United States—God be blessed for it!—is strongly aroused to the wrongs and sufferings of Hungary. My humble task in that respect is done. Now I look for your generous aid to keep that generous sympathy alive, that it may not subside like the passing emotion of the heart. I look for your generous aid to urge the formation of societies, to collect funds and to create a loan. I look for your generous aid to urge the public opinion of the sovereign people of the United States, to pronounce in favor of the humble propositions which I had the honor to express at the Corporation Banquet of the City of New York, until the resolutions of the people succeed to impress the favorable impression to the people of the United States. In this respect I beg leave one single remark to make. In speaking of the principle of non-admission to any interference in any country's domestic concerns, I took the liberty to express my humble wish to see Great Britain invited within this protective policy. The reason is, because I take the present French Government for one of the oppressors—it has interfered, and continues to interfere in Rome. But the French nation I take for one of the oppressed. The French nation will do the same as Hungary, Italy and Germany. The alliance of the French nation is insured by its necessary principles, if the republic becomes a reality. The decisive question is what the neutral powers will do—and these are Great Britain and the United States. Let me hope, gentlemen, that however low I have fallen in your expectations by this my humble address, which, though sketched down, by want of time, elaborate; still following the generous impulse of your republican hearts, and considering not the merit of my humble self but the merit of the cause which I plead, you will accord me that protective aid of the free, independent press upon which rest, for the greater part, the hopes of my nation and those of oppressed humanity. And if you generously accord me that protective aid, I will yet see fulfilled, in my own country's cause, those noble words which you, sir, (to the Chairman,) from that height where the genius of poetry soars, have told your people, which so likes to listen to the noble inspirations of its Bryant:

Truth crushed to earth shall rise again,
The eternal years of God are hers;
But error, wounded, writhes in pain,
And dies among—
Let me add, sir, with——his worshippers.

City Matters.

ANOTHER FIRE.—Shortly after midnight Wednesday, the alarm of Fire was sounded for the Fourth Ward. It proceeded from the Cabinet Ware Room of Mr. S. C. NEWHALL, on West Water Street, half-a-block north of the Methodist Church. The flames had full possession of the premises by the time the Fire Department arrived upon the ground, but they were prevented from spreading any further. The building, which belonged to Mr. JOHN KNEELAND, was entirely destroyed, as was most of the furniture stored in it. There was no insurance on stock, or building. The adjoining tenements, on the North and South, were somewhat scorched, but not materially injured. Mr. NEWHALL's loss must be over $1000. The fire is supposed to have been set by design. Where is the Night Police!

THE LICENSES.—It will be seen that the Common Council yesterday took such action in this matter as to suspend for the present the issuing of orders in repayment of license money. This will satisfy the taxpayers who have protested. In addition, the Board directed Deputy Marshal O'BRIEN, appointed by the Marshal at their suggestion, to proceed to enforce the law at once. If this be done, those who have paid their licenses will have no further cause of complaint.

The record shows that other things of considerable interest were attended to.

OREGON COMPANY'S BALL.—The Ball of Engine Company No. 3, on Christmas Eve, was one of the pleasantest parties of the season; well managed, well attended, and highly enjoyed.—The Supper, by GOBB, was substantial and abundant, and Hess' Band discoursed excellent music. One feature of the entertainment, not in the bill, was the fire in NEWHALL's Cabinet Shop, shortly after midnight. This interrupted the Ball for a short time, and some of the ladies, who could'nt spare their partners long enough to go to the fire, insisted, if they *must* go, upon accompanying them, and so they did. Of course, the fire was hustled out in short order, and the dancing resumed.

SWIFT TELEGRAPHS AND SLOW MAILS.—The Steamship *Canada*, from Liverpool, arrived at Halifax, nearly two thousand miles (by the wires) from this city, at noon *yesterday*, and in *three* hours thereafter, her news was received at Speed's Telegraph office in this city, to which we are indebted for our first report. We obtained the same intelligence by the O'Reilly line, at the regular hour for our evening reports. It is a remarkable fact that we have by the *Canada, two days' later news from Liverpool than the mails have yet brought us from New York!* The latest Liverpool date is Dec. 13th, and our latest New York date, by mail, Dec. 11th, two days older! Yet Liverpool is three thousand miles further off than New York.

THEATRE.—There was a full house at the Theatre, Christmas night, and the performances went off with great spirit. The little Bailey's were, as usual, warmly applauded in their different dances and the whole company acquitted themselves very cleverly. In the Pantomime of "Don Juan," STONE, who played the part of "Scaramouch," surprised and delighted the audience by his spirited performance. He was, as he deserved to be, heartily applauded. Mr. HANN, the Stage Manager, deserves great credit, not only for his own share in the performances, but for his indefatigable efforts to cater to the public amusement. He offers another very attractive bill for to-night.

EXCELSIOR FESTIVAL.—The Excelsiors hold their Sixth Annual Festival at BELDEN's, on New-Years' Eve. It will be seen from the notice that the number of tickets is *limited*, so that those who wish to attend must apply early to secure seats. It is currently reported that BELDEN intends, on this auspicious occasion, to "set a pattern" in the way of such entertainments.

☞ The attention of old settlers, legislators and others, who may be supposed to take an interest in the "ancient records" of Wisconsin, is invited to the advertisement of Mr. A. V. FRYER, in this morning's paper.

YOUNG MEN'S ASSOCIATION.—We are requested to state that the Association wishes all books belonging to its Library to be returned by this evening, preparatory to getting up a new catalogue.

◆ KOSSUTH MEETING.—This meeting, for which preparations have been making for some time past, is to be held this evening, at 7 o'clock, at the Market House. The following are to be the officers, according to the programme laid out:

President—George H. Walker
Vice Presidents—Dr. James Johnson and Dr. F. Jung.
Secretaries—Alfred Johnson and Dr. G. Aigner.

Messrs. A. D. SMITH, N. KRUER, E. G. RYAN, A. W. RANDALL, DR. HUEBSCHMANN and others are expected to speak.

A GOOD DAY'S WORK.—Our fellow citizen, Mr. GARRY BOYD, (of the firm of BOYD & LEDYARD) left town about 8 o'clock Thursday evening, with a couple of friends; drove out ten miles, and put up for the night, and started out at dawn, yesterday morning, hunting deer. At 4 o'clock yesterday afternoon, he was back again in town, with two fine, fat deer, which he shot almost at the same instant, with the right and left barrels of his gun. Fair day's wages for a fair day's work!

ACQUITTED.—Mr. Day, who was arrested and committed a few days ago, on charge of having forged 4th Ward Orders, was arraigned before Justice Walworth for trial, on Wednesday last, and after an examination, was acquitted, the evidence against him being entirely insufficient to convict him.—*Free Democrat.*

SNOW.—Christmas brought us about two or three inches of snow, which falling on the frozen ground, makes good sleighing for Cutters. Two or three inches more would make capital sleighing for all sorts of teams, and add materially to the winter's business.

TOBACCO CULTURE.—We are informed that a Mr. Lilly of Springvale, in this county, raised some *two tons of tobacco* last summer. This crop will yield him a better reward for his labor than most grain farmers raise.—*Fond du Lac Journal.*

STOPPED.—Last week, in consequence of the cold weather, the steam saw Mills of this place stopped operations.—*Ib.*

EPISCOPAL CHURCH.—The work on this building is progressing rapidly. It is enclosed, the floor laid, and chimneys built.—*Ib.*

METHODIST CHURCH.—This building is enclosed, and the cupola begins to overlook our village.—This structure reflects credit on the society and citizens who have given their monies to the enterprise.—*Ib.*

A DROP OF PUNCH.—A POSTHUMOUS WORK.—Some one (whom we will not disgrace by printing his name) says, that "the lobster is a posthumous work of creation; for it is only red after its death."

French Affairs—Liverpool Market.

(Same as reported by Speed's Line.)

Washington, Dec. 26.

The following committee was appointed on Bounty Land Bills:

Messrs. Dunham, and Stephens of Geo., Harris of Tenn., Tuck and Bissell.

The speaker laid before the House a communication from the Librarian of Congress, stating the loss of the Library and its contents by fire, in a manner unaccountable to him, as no fire had been in the apartment in a long period, nor lights during the time it had been in his charge. The loss of books is about 35,000 volumes—20,000 having been saved in an adjoining room. The Librarian expressed the hope that a searching investigation would be made as to the cause of the fire, so that a like calamity might be in future avoided.

Mr. Stanton of Ky., by unanimous consent, introduced a resolution that the Joint Committee on Public Buildings be instructed to inquire into the origin of the fire; whether it was in consequence of the negligence of the officers of government, or members of either or both houses of Congress—whether the fire was caused by the furnace, or flues, or by incendiaries; also as to the extent of injury to the building, and the best mode of reconstruction, so as to guard against a similar destruction.

The Revolution in Mexico.

New Orleans, Dec. 23.

By the receipt of Brownsville (Texas) papers to the 3d instant we learn that the Revolutionists in Northern Mexico had commenced the struggle against the General Government. Gen. Caravajal had attacked the Mexican General, Ireguy, who had fortified himself in Ceralo. After two days hard fighting Caravajal took nearly the whole town and drove the Mexicans to a fortified house where they were completely penned up—all the powder and other munitions of war were taken by Caravajal; who had but ten killed, including Lt. GRAHAM and Captain CHIVE. Capt. WHEAT was severely wounded. The loss of the Mexicans was very great, including all the Seminole Indians and their leader.

The latest accounts state that Gen. CARAVAJAL was about to attack the Mexicans in their last position. If successful he would enter Monterey without opposition.

Kossuth in Philadelphia.

PHILADELPHIA, Dec. 25.

KOSSUTH is better of his fever, but kept his bed most of the day, refusing to see, or communicate with any delegations. He has had an interview with Maj. JEROME, of Baltimore, and has declined a public reception. The excitement is increasing. The Torch-light procession which visited Kossuth at his quarters at 9 o'clock, was composed of members of the Philadelphia Fire Department.

Fifteen hundred torchlights illuminated the scene, and the procession contained over 3000 persons.

The bands played several American and Hungarian airs. Choruses from the German Musical Society sung several songs in capital style. The enthusiasm was immense. Kossuth did not appear, on account of the storm.

A delegation from Harrisburg waited on Kossuth, inviting him to visit that city. In reply to them, among other things he said, that during the Hungarian struggle an agent was sent into Hungary, to ascertain the true state of affairs, and had that agent, when he found Hungary in a condition to assert and maintain her independence, against Austria, acknowledged her independence in the name of the United States, it would have warned the Russian despot how far the United States would have sustained the principle of non-intervention in the concerns of another nation. He continued to speak of the danger of delay of the People of the U. S. in giving their decision in the matter.

DETROIT, Dec 25—9 A. M.

FIRE AT DETROIT.—A fire broke out in the Book Store of W. H. Graham about 11 o'clock, and together with water from the Engines, destroyed or damaged seriously the entire stock of books. The damage to the building is not great. The fire was caused by wood being placed too near the stove. The books were partly saved.

NEW YORK, Dec. 26th.

The steamer *Niagara* sailed this P. M. for Havana and Chagres, with 500 passengers.

A letter from Genoa, dated Nov. 4th, states that the frigate *Independence* will probably winter at Naples, where apprehensions are felt of an outbreak before spring, when her presence will be important to Americans residing there.

The Charleston *Courier* publishes a private letter from Mr. Barringer, our Minister to Spain; in which he says that the insult to the Spanish Consul at New Orleans was greatly condemned.

From Mexico—The Battle.

New Orleans, Dec. 24.

Accounts from the Rio Grande represent that the engagement between Caravajal and Gen. Jauregny was of the most desperate and bloody kind, and that the latter had retreated to Ceralo, 50 miles distant, where the Government troops were completely routed.

Caravajal occupied the town.

Boston, Dec. 26.

The extensive Gas works of B. F. Kane were destroyed by fire this morning.

Mr. Kane's loss is $20,000—no insurance.

Mr. Kane's loss in a warehouse, $8000. Some 300 men have been thrown out of employment.

Great Fire in Flint—Loss $80,000.

Flint, Mich, Dec. 22—9 A. M.

Our village has been visited by one of the most appaling and devastating fires, which has cursed with its sweeping presence the West, for years.

At 12 o'clock on Saturday night our citizens were alarmed by the sudden bursting out of a volume of flame from the centre of our most valuable and populous block, owned and occupied by our principal business men with heavy Fall stocks. The entire Block from and including J. B. Walker's store to the margin of the river is a mass of smoking blackened ruins. Owing to the extreme combustibility of the material and the fact of there being no engine in the place, but comparatively a small portion of the stored goods were saved.

A fair estimate cannot place the loss at less than $50,000. The insurance cannot, in the confusion and dismay be computed; and the loss from this will be likely to prove rather over than under the estimate. The names of the principal sufferers are appended below:

J. E. Walker, dry goods store; heavy stock; loss unknown.

W. T. Crossman, jewelry store; very valuable stock.

L. Wessons, drug store, containing his Fall instalment of drugs and medicines.

A. P. Crossman, dry goods and variety store.

P. O. mails and letters saved.

E. F. Fray, grocery.

T. V. Rogers & Co., dry goods.

John Parish, dry goods; fair hill stocks.

J. B. Wing & Co. Clothing store.

Barker & Patterson, shoe store.

James McAllister, carriage factory.

J. P. Smith, meat market.

Miller & Co., cabinet ware rooms.

R. D. Lamonds, bookstore and residence.

O. J. W. Hells, cabinet manufactory.

W. Morris, drugs and groceries.

M. Morris, Hardware store.

River House Hotel—together with a number of offices and several dwellings. The community are appalled, and some time will elapse before the loss will be replaced.

Correspondence of the Green Bay Advocate.

A New Era in the Fox River Improvement.

Neenah, Dec. 13th.

Mr. Editor:

It will be gratifying to those really interested in the Fox River Improvement, to learn that the lock at Neenah is now completed. It has been fully tested and works admirably. The steamboat *Van Ness Barlow* passed through this lock a few days since, and several rafts of hewn timber for the public works below have been locked through. This lock is doubtless the best in the State—no expense or labor having been spared to make it, in all its parts, of the most substantial and permanent character. With a little additional expense in removing the bolders from the channel below, steamboats and barges can readily pass from the Grand Chute to any point on the lake or river above. There is now 3½ feet of water in the channel below. Steamboats and barges can now readily pass from the Grand Chute to any point on the lake or river above.—There is now some 3½ feet of water in the channel below the lock, and may it be easily made 4 or 5 feet in depth. The lock at Neenah now connects by steamboat navigation the waters of lake Winnebago with Little Butte des Morts and will greatly facilitate and aid the transportation of goods and merchandize the coming season. This channel, into lake Winnebago, is the natural channel for navigation and transportation; so declared by the ordinance of these United States; by the acts of our own legislature, and so decreed by the Great Creator, the efforts and acts of interested individuals and of corrupt and truckling political gamblers to the contrary notwithstanding.

It is ardently to be hoped for the honor and credit of our State, and the success of internal improvements, that the members of our Legislature—Commissioners of Public works and State Engineers may be men of candor—of sound, discriminating minds—of moral honesty, and firm integrity, too high minded to barter and sell the interests of the people in hopes of personal gain, and too honorable to aid party tools and vile miscreants to plunder the State Treasury.

PRO BONO PUBLICO.

FIRE.—THE WORKS OF AN INCENDIARY.—About 2 o'clock Tuesday morning the extensive tanning works of Mr Charles W. Taylor, situated at the extreme northern limit of our city, was discovered to be on fire, and notwithstanding our ready firemen were promptly on the ground, the buildings with their contents were almost totally destroyed; some few hides and some partly tanned leather in the vats only being saved. The estimated loss is $10,000, and *no Insurance*. That this was the work of an incendiary there can be no doubt. The fire when first discovered was in a part of the building where no fire was ever kept, and the precaution had been taken to put water in the engines, so that when brought upon the ground a long time elapsed before they could be got into working order. There can be no mistake about this, as No. 1, was on Saturday night previous, taken up, oiled and put in perfect working order. But to remove all doubt Mr. Taylor last evening received the following laconic epistle through the Post office—written in a disguised hand of course:

Grand Rapids Dec. 16, 1851.

DAME YOU,—you have got it last, I told you I would have revenge. Yours truly, in truble.

Some two years ago an attempt was made to burn that small building, but it failed; and about two weeks since a like attempt also failed to fire his store on Monroe street, which, had it succeeded, must have involved in its destruction some of the adjoining buildings and a large amount of property.

The mere statement of those facts will awaken a deep sympathy in the community for Mr. Taylor; and an irrepressible indignation against the perpetrator of these outrages, should he be discovered.—*Grand Rapids Enquirer.*

Destructive Fire in Lowell.

LOWELL, Mass. Dec. 16th.

About half-past 1 o'clock, this morning, a fire broke out in Crosby's turning mill, situated on Howes street, which was also occupied as a bed stead factory, machine shop, &c., all of which were consumed, with three dwelling houses owned by Mr. Z. Abbott, and two by Stephen Castle, on Fayette st. Also, Statt's flannel mill.

The loss on the latter is estimated at $12,000. Insured for $9000, in the Etna, Hartford.

Mr. Castle's loss is $6000. Insured for $4000.

The loss to Mr. Crosby is about $6000—on which he has an insurance for 2000.

Abbott's loss is stated at $3000—partially insured.

Large Fire at Raleigh.

Baltimore, Dec. 16.

A most destructive conflagration occurred at Raleigh, N. C., yesterday, by which some twenty or thirty buildings were consumed, including the telegraph office. So rapid was the progress of the flames, that it was found necessary to blow up the buildings, to prevent a further spread of the conflagration.

ALBANY, December 16—P.M.

It has leaked out, to-day, that George Law, of New York, has made such propositions for all the work on the Erie canal enlargement as will make him the most formidable competitor. It is reported that Mr. Seymour, the State Engineer, has expressed a desire to award Law the contracts, believing his propositions the most favorable to the interests of the State of any responsible bidder. This report has caused a terrible swearing among some of the contractors, and they are having an exciting time at the Mansion House, their headquarters, this evening.

☞ SERIOUS ACCIDENT.—Mr. Milton Hamlin, one of the men employed on the new bridge, fell from the piles to the ice, a distance of about 10 feet, and hurt him quite seriously. It is feared he will not recover.—*Kenosha Telegraph.*

TAPSCOTT & CO'S
General Emigration and Foreign Exchange
AGENCY.

NEW-YORK: W. & J. T. Tapscott & Co., 86 South Street.
LIVERPOOL: W. Tapscott & Co., St. George's Buildings.

ARRANGEMENTS FOR 1851.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them, that with an increase of business we are grateful—we are in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction, all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

By the following List of Packets, and their dates of sailing—being six regular packets a month to and from Liverpool—four, to and from London—and two, to and from Glasgow—persons sending for their friends, or those proceeding to the "Old Country," will perceive it much to their advantage to make arrangements at our offices; and as heretofore, our business in Liverpool will be under the personal superintendence of Mr. W. TAPSCOTT—whose well known care and attention to passengers embarking by our line has won for him his present high reputation among the emigrating public.

LIVERPOOL PACKETS.
SWALLOW-TAIL LINE:
Sail from New York on the 6th and 21st, and from Liverpool on the 6th and 21st of every month.

	Tons.	Capt.

RED STAR LINE:

	Tons,	Capt.
Constellation,	2000	Allen.
Waterloo,	1150	Harvey.
West Point,	1150	Allen.
Underwriter,	2000	Shipley.

THE "Z" LINE OF LIVERPOOL PACKETS:
Sail twice a month from Liverpool and New York.

Antarctic,	1750	Rickers.
A. Z.,	1050	Chandler.
Jas. H. Shepherd,	1100	Ainsworth.
New Hampshire,	1000	Chase.

During the past year our Liverpool House have dispatched, in addition to the above extensive list of packets the following well known ships, and in order to meet the wants of the emigrating public, they will continue to select such other first class vessels as may be required during the year 1851—viz:

John Hancock, Dundee, Anna Tift, Emigrant, Cleona, Mary Ward, John Currier, Eliza Ann, Hercules, Acme, Canada, London, Ellerslie, Zeuta, Oregon, John M'Kenzie, Robert, Olive Branch, Revere, Caroline Nesmith, Charles Chaloner, Hungarian, Rappahannock, Emma Field, William Patten, Scargo, John Henry, Phaleta, Oswald, Cora Linn, St. Louis, &c. &c.

THE LONDON LINE OF PACKETS
Sail from New York on the 1st, 8th, 16th, and 24th, and from London on the 6th 13th, 21st, and 28th of every month, and comprises the following magnificent Ships:—

Ocean Queen, Margaret Evans, Hendrick Hudson, Victoria, Southampton, Northumberland, Devonshire, American Eagle, Cornelius Grinnell, Yorktown, Prince Albert, Sir Robert Peel, London, American Congress, Patrick Henry.

The Clyde Line of Glasgow Packets
Sail from New York and Glasgow on the 1st and 15th of each month, and comprises the following first class Ships:

Brooksby, Hyndeford, Anne Harley, Adam Carr, Sir Wm. Molesworth, Mount Stuart Elphinstone, Sarah, Elizabeth.

Persons residing in the United States or Canada, who wish to send for their friends in any part of England, Ireland, Scotland, or Wales, can make necessary arrangements on application to the subscribers, and have them brought out by any of the above favorite lines of packets, or by first class merchant ships, on favorable terms, either by way of Liverpool, London, or Glasgow, and the frequency of sailing precludes the possibility of delay. Passage can also be secured from Liverpool to New Orleans, Baltimore, Boston, Charleston, and Savannah, direct.

☞ A weekly Line of Packets for New Orleans.

Drafts and Bills of Exchange.

Drafts can at all times be obtained at our Office, for large or small amounts, on all the principal places in Ireland, payable at sight, for any amount, from £1 sterling upwards, without discount or any other charge; also Drafts on Messrs. W. Tapscott & Co., Liverpool, and on Messrs. James Bult, Son & Co., Bankers, London, payable throughout England, Scotland, and Wales.

TO EMIGRANTS FOR THE FAR WEST.

Having the most extended arrangements for conveying passengers from New York to the Far West, of any house in the Trade, we are enabled to offer them any mode of conveyance, whether Railroad, Canal, or Steamboat, at prices as low as are usually paid for the worst possible conveyances, and with a certainty of their not being subjected to any delay or imposition on the route. Pamphlets with full descriptions of all the routes, with rates of fare for any place on the American continent—including California—can be had gratis. Every information given on application, either personally or by letter, addressed to

RELIANCE WORKS,

Proprietors and General Manufacturers of
STOVES.
(BOTH WOOD AND COAL,)
FOR COOKING, PARLOR & OFFICE USE; GRATES, FIRE FRONTS, CITY AND COUNTRY HOLLOW WARE, KETTLES of all kinds, SAD-IRONS, STRAW CUTTERS, CORN CRACKERS, SHELLERS, AGRICULTURAL IMPLEMENTS, AND PORTABLE
GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added to the Foundry business of their former occupation of Mill manufacturing, and are now prepared to supply the public with articles in their branch on terms that will defy competition. In doing so, they go forth to the community with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following set of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,
(Which received the First Premium at the State Fair, lately held at Janesville.)

Possesses great advantages over every other stove, for it has a direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with but half the fuel; not consuming over four cords of wood in one year.

The TRIUMPH, single oven, to burn long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the conveniences of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever set up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

is so arranged in the oven that you can divide it into three different apartments, if necessary, making it one of the largest ovens in use, as well as the most simply constructed stove in use. These stoves are warranted against breakage by fire, and to give

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $3000 in one risk, or in a circle of eight rods.

The company posses both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one half the regular cash premium in full, without a premium note. Stoves may be added or changed, out-buildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays the full amount of damage not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the assessment on exposed dwellings and farm property, are a premium not over one per cent, and a cash payment of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 53 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $3000 in the treasury, and 45 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and each expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over inflammation and nervous irritation. From the best of evidence in our possession, from Physicians of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism, Burns, Freezes, Ulcerated sores, Scald head, or for relief from sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

☞ The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the intellect and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause. J. B. TRIPP & Co.

HANNIBALVILLE, Oswego Co., May, 1849.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former, feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co, of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." JOHNSON'S CHEMICAL
HAIR INVIGORATOR,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually
SCURF OR DANDRUFF.
Prepared only by S. JOHNSON, 151 E. Water-st.
FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which feed the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also impart to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 21 2m

PAIN

Is the warning given of the presence of disease, and the derangement of the nervous and muscular system. In order to cure disease and rid the system entirely of its cause, our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system; this we accomplish by the marvellous strengthening, cleansing, invigorating and powerful pain-soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhoea, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

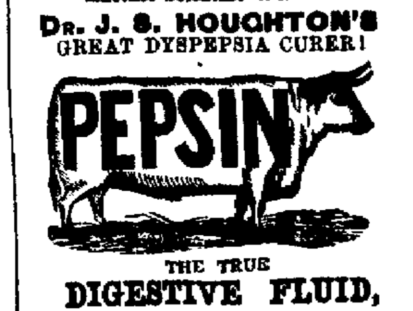
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!
DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicines.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur."

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
